

Enduring Hearts

HEALTHY KIDS • STRONGER HEARTS • LONGER LIVES

Road to Recovery Gas Card Program

**We would love to support your heart families today!
Use this great family resource without adding to your workload.**

Follow these FIVE easy steps to get started:

1

Share information and documents about Enduring Hearts and the Gas Card Program with families being treated at your hospital.

2

Families are then directed to our website to fill out an easy application.

<https://www.enduringhearts.org/research-for-families/gas-card-program/>

3

Quarterly, we will send you a spreadsheet with the families that applied for you to verify their treatment status.

4

Once approved, we will email families a link to select their gas card. Physical cards will be mailed within two weeks.

5

Families are then eligible for up to 4 quarters with deadlines for renewal each quarter. Right now, cards are \$100-200 per quarter.

Check our website for deadlines and more details.

Thank you for your assistance in providing help to pediatric heart transplant families to mitigate the cost of frequent back and forth travel to transplant centers.

You are a heart hero.
